

K-LOVE serves my community so there is non-violent and family-oriented programming that is safe for my child. If K-LOVE were off the air, I would not listen to the radio nor have my child listen to the radio because there is such filth that is on the airwaves. K-LOVE brings my family together to spend quality time with each other by its music when other radio stations aim at making fun and putting others down. K-LOVE is positive and encouraging.
